25X1 PROPOSED ISSUANCE: [ ] Dissemination of Non-CIA Produced  
Cables and Telegrams  
Draft B dated 5 December 1955

[ ]

25X1A9A

RECORDS MANAGEMENT STAFF

21 February 1956

1. Paragraph 5b does not distinguish between reporting the receipt of cables classified TOP SECRET and those classified lower. It is understood that the procedure will be the same regardless of the classification. However, unless the regulation so states, the question of distinctive reporting may arise since normally TOP SECRET material is handled differently than material classified lower. We therefore recommend that the following sentence be added to paragraph 5b: "The following instructions apply to all non-CIA produced cables, regardless of their classifications."

2. This addition was discussed with Mr. [ ] LD/OCR, who concurred in its inclusion in the regulation. 25X1A9A
